0 / 10 questions

Built for

Six interconnected systems that simulate the pressure, unpredictability, and depth of an actual technical interview.

CORE

AI-Powered Interviews

Deep conversational intelligence that adapts its questioning style, difficulty, and depth in real-time — just like a seasoned interviewer would.

PERSONAS

Custom Interviewer Personas

Build unlimited personas — define the role, company culture, domain, and experience level. The AI embodies each persona completely.

REAL-TIME

Audio & Video Calls

Live WebRTC-powered interview sessions. Speak your answers out loud; the AI listens, transcribes, and responds naturally.

INTEGRITY

Cheating Detection

Tab-switch tracking, multi-speaker audio detection, and face-count analysis — every session is proctored so your results mean something.

VOICE

Speech Analysis

Filler-word detection, pacing, and confidence scoring layered on top of your transcribed answers for a full vocal performance breakdown.

INSIGHTS

AI Performance Reports

Post-interview reports generated by the AI: answer quality, response time, red flags, and targeted coaching to close the gap.

UP AND RUNNING IN MINUTES

Three steps to

No setup headaches. Create an account, build a persona, and start practicing — all in under two minutes.

STEP 01

Create your account

Sign up in seconds with your email or Google. Your profile is the foundation — every session, persona, and report lives here.

→ Email · Google OAuth · Secure JWT sessions

Email alex@company.com

STEP 02

Build a persona

Define who's interviewing you. Set the target role, company culture, domain, difficulty, and skills — the AI becomes that interviewer completely.

→ Unlimited personas · Custom system prompts · Domain-specific questioning

Senior SWE @ Google

New Persona

Hard

Domain	Software Engineering
Exp.	7+ years
Style	Behavioural + Technical

Go System Design DSA Kubernetes + Add skill

STEP 03

Start your interview

Jump into a live text, audio, or video session. Answer questions, get real-time AI feedback, and receive a full performance report when you're done.

→ Chat · Audio call · Video call · AI report

Chat Audio Video

"Tell me about a time you led a technical project under pressure."
